

TC-172-LM

TENCO[®]

SPECIFICATIONS

Snowblower Model TC-172-LM

PERFORMANCE:

From 1500 to 1700 tons/hour (1360 to 1543 metric tons/hour) - depending on snow conditions

CASTING DISTANCE:

Up to 150 ft. (46 metres) through the impeller
Up to 40 ft. (12 metres) through the truck loading chute

DIMENSIONS AND WEIGHT:

Overall height 136" (3454 mm)
Overall width 102" (2590 mm)
Working height 50" (1270 mm)
Weight 6300 lb (2864 kg)

AUGERS:

Two (2) 16" (460 mm) diameter

IMPELLER:

34" (864 mm) diameter with five bolt-on concave impeller blades

IMPELLER CASING:

150° total rotation - flat discharge to the right and 60° to the left

TRUCK LOADING CHUTE:

13" (330 mm) diameter
300° rotation with spot casting deflector

ENGINE:

180 hp (134 kw) turbo-charged diesel engine
Optional engine - 200 hp (150 kw) turbo-charged diesel engine

POWER TRAIN SYSTEM:

Over-center type clutch
Fully enclosed oil bath
Chain and gear type reduction
Protected by two sets of shear bolts

HYDRAULIC SYSTEM:

Engine driven pump with electro-hydraulic valves - filter located on return line
In-cab mounted instrument panel

SCRAPER BLADE AND SKATES:

Two sections reversible steel scraper blade
Ten bolt-on steel skates

OPTIONS:

Carbide skates
Hydraulic steering vanes
20" (508 mm) hydraulic chute extension
Residential muffler
Working lights
Heated fuel/water separator
Specified paint color

**please consult factory for other available options*
