# SNOWBLOWER TC-272-14 LM

**TENCO**<sup>®</sup>

# SPECIFICATIONS

## Snowblower Model TC-272-14LM

### PERFORMANCE:

Minimum of 3000 tons/hour  
(2730 metric tons/hour) - depending on snow conditions

### CASTING DISTANCE:

Up to 150 ft. (46 metres) through the impeller  
Up to 40 ft. (12 metres) through the truck loading chute

### DIMENSIONS AND WEIGHT:

Overall height 135" (3429 mm)  
Overall width 112" (2845 mm)  
Working height 68" (1727 mm)  
Weight 11000 lb (5000 kg)

### AUGERS:

Two (2) 27" (686 mm) diameter

### IMPELLER:

44" (1118 mm) diameter with five bolt-on  
concave impeller blades

### IMPELLER CASING:

150° total rotation - 100°  
to the right and 50° to the left

### TRUCK LOADING CHUTE:

17" (432 mm) diameter  
300° rotation with spot casting deflector

### ENGINE:

300 hp and up (225 kw) turbo-charged diesel engine  
*\*please consult Tenco for optional engines*

### POWER TRAIN SYSTEM:

Over-center type clutch  
Fully enclosed oil bath  
Chains and gear type reduction  
Protected by two sets of shear bolts

### HYDRAULIC SYSTEM:

Engine driven pump with electro-hydraulic valves  
- filter located on return line  
In-cab mounted instrument panel

### SCRAPER BLADE AND SKATES:

Two piece reversible steel scraper blades  
Ten bolt-on steel skates

### OPTIONS:

Carbide skates  
Hydraulic steering vanes  
15" (381 mm) or 20" (508 mm) hydraulic chute extension  
Residential muffler  
Working lights  
Heated fuel/water separator  
Specified paint color

*\*please consult Tenco for other available options*
